Electricity

Voltage: 220-240 Volts (U.S./Canada are 110-120 Volts)

Primary Socket Type: Europlug, Schuko

Multi-voltage appliances (laptops, etc.): Plug adapter

110-120V electronics: Plug adapter + step-down transformer

Hair dryers, curling irons, etc.: Plug adapter + voltage converter

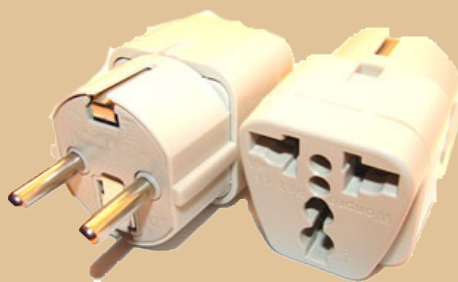

Electrical sockets (outlets) in Germany (Deutschland) are one of the two European standard electrical socket types: The “Type C” Europlug and the “Type E” and “Type F” Schuko. If your appliance’s plug doesn’t match the shape of these sockets, you will need a travel plug adapter in order to plug in. Travel plug adapters simply change the shape of your appliance’s plug to match whatever type of socket you need to plug into. If it’s crucial to be able to plug in no matter what, bring an adapter for all types.

Adapter for “Type E/F” European CEE 7/4 or CEE 7/5 Schuko

Dos and Don'ts of Leipzig

As with any new city and culture, being knowledgeable and respectful of the customs is key to enjoying your trip safely.

- DO make a copy of your passport and carry it with you, while keeping your actual passport locked up in the safe at the hotel.
- DO hit the ATM – cash rules in Germany and many restaurants don't take credit cards.
- DON'T jaywalk. Nobody else does, and you might get fined.
- DO shake hands when you're introduced to someone – it's impolite not to.
- Do avoid dark isolated areas at night.
- Be mindful of your surroundings and enjoy the world of things to do in Leipzig.

Tourism Resources

With a wide range of activities, entertainment, shopping, and historical tours, there is something special for everyone in Leipzig. To decide how to schedule your perfect post-Congress plan, visit the following sites for more information.
